INSPIRATION FOR YOUR GARDEN

2020 GARDEN PRODUCTS RANGE

We are proud of our exceptional and inspiring range of added value outdoor timber products.

For the 2020 season KDM have made some important additions enhancing our reputation as the leading supplier of outdoor added value timber products. The focus of our product range is to provide exceptional quality and product variety to suit all tastes and budgets.

Whilst developing our outdoor timber products range we have remained true to our core values of building successful and sustainable business partnerships. To reinforce our commitment to the environment we hold FSC® and PEFC Chain of Custody Certification.

We pride ourselves on our quality, range of product groups, stock holding, distribution facilities and offering a prompt delivery service throughout the UK and Ireland. In line with new industry and treatment standards, for in-ground contact products, all of KDM's planed and sawn posts are produced from Redwood only, cut 2/4ex log, kiln dried to 18-28% moisture content and pressure treated to Use Class 4.

All of KDM's products are manufactured from selected softwood, stainless steel fixings and treated with a high quality preservative. With the exception of our Willow, Hazel and Oak all other products are supplied pressure treated to enhance the decorative style and protect the timber from insect infestation, fungal decay and rot. The treatment colour may vary depending on timber species and chemicals. The colour will fade as the timber is exposed to weather conditions and further staining will be required to enhance the products appearance.

"KDM's aim is to offer exclusive and original products that meet the very highest standards of timber manufacturing. We are committed to providing our customers the ultimate in quality products, unrivalled service and value for money."

The mark of responsible forestry

Buying products identified with either schemes logo helps support the growth of responsible forest management worldwide.

'The global benchmark for responsible forest management' The FSC® logo identifies products which contain wood from well managed forests certified in accordance with the rules of the Forest Stewardship Council®.

The PEFC logo identifies products which contain wood from well managed forests certified in accordance with the rules of the Programme for the Endorsement of Forest Certification Schemes.

WHAT MAKES KDM PRODUCTS SUPERIOR?

The UK outdoor timber products market has experienced major developments in added value products over the last 20 years. KDM has been at the forefront of these developments and enhanced its position as the market leader through the use of new technology, improved product design and attention to detail. We have continued to improve key product features and maintain our business principles to ensure our products stand out from the competition and remain the leading brand in the market.

SELECTION

LOG SELECTION

When using natural resources careful selection is the fundamental ingredient in creating successful products. All raw material is hand selected to suit the individual, intended components. It is vital that each component is produced from the appropriate section of the log and made from the highest quality raw material.

PRODUCT DESIGN

We aim to offer exclusive and original products that meet the very highest standards of timber manufacturing and design. Whether the product is decorative or functional or a combination of the two our principles remain the same.

DESIGN

MANUFACTURE

PROCESSING & MANUFACTURING

From the initial stages each piece is checked twice and hand selected ensuring all defects are excluded. Timber is a natural product, the grading process is essential to ensure the highest quality standards are maintained.

TREATMENT

Excluding the Willow, Hazel and Oak all other products are pressure treated to use class 3 or 4 with the highest quality preservative. The treatment is designed to enhance the product and extend the life span, they will require further treatment in time. Products intended for in-ground contact are treated to use class 4 to provide a longer life span, save the customer financially and have a reduced impact on the environment.

PHILOSOPHY

KDM's philosophy is to continually improve specifications, including but not restricted too; the size and number of components, timber profiles, product design, quality of fixings, treatment and manufacturing developments.

TREATMENT

FENCE PANELS, POSTS & ACCESSORIES

Choosing the right fence post is an important part of the overall look and longevity of your fencing. At KDM, we produce four types of post, which are all planed and treated to Use Class 4 to assist in the safeguarding against environmental conditions and come with a 10 year warranty. We produce two styles; smooth planed and ribbed, they are available in 4 way and 2 way rounded top. Our smooth planed posts are ideally suited to the following panels and corresponding gates:- VP, TGA, TGF, SLA, TGLT, EST, OL, PW, also all of our planed border and picket products, decorative lattice ranges and decking. Our two profiles of ribbed posts, 4-way and 'H' posts, are ideally suited to the following panels and corresponding gates:- OLT, ALT, AH, HLT, VA, and SH.

PLANED & RIBBED PINE POSTS 4 way rounded top

<i>Size – 2/4 ex log</i>	<i>Order Code</i>
